

T-i^X 5500

Electronic Coin
& Bill Counter

COUNTS YOUR
CASH IN
60 SECONDS

The Tellermate T-i^X 5500 is the first ever Wi-Fi enabled cash counter on the market, offering you a new level of flexibility and efficiency.

The T-i^X 5500 cash counter can transmit your cash counting data to your back office system at the touch of a button.

It can quickly and accurately count a drawer of coins, bills and coupons saving you valuable time.

The alphanumeric keypad makes it easier to enter balances, reference numbers and media items, enabling you to reconcile your full cash drawer in under one minute.

Available in both single and multi-till options, the T-i^X 5500 is designed to adapt to your specific needs. Plus, it is fully connected. Count data can be sent to a Tellermate printer or directly to your PC via USB, serial connection, or through in-store Wi-Fi access points. This data can be used to identify discrepancies allowing you to act on them swiftly and confidently.
